## CORE COMPETENCES AND SKILLS

**Programing Languages:** JavaScript/TypeScript, C#  
**Technologies and Tools:** HTML & CSS, .Net Framework, React.js, Node.js, Express.js, Redux Toolkit, Tailwind CSS, Git & GitHub, Sequelize, PostgreSQL, SQL Server, Express, RESTful APIs, Jira & Asana  
**Languages:** English & Spanish (Native)

## ABOUT ME

I'm a Software Engineer who builds clean, reliable websites and mobile apps using React and the .NET Framework. I focus on simple, fast, and accessible user interfaces backed by solid engineering. I've delivered secure, high-performance features for major Dominican banks—serving large regional user bases (for context, groups like **Promerica** have 3.7M+ customers across LATAM).

## PROFESSIONAL EXPERIENCE

**Sistemas Integrados de Informatica, Dominican Republic**  
**Front-end Web Developer, January 2024 – August 2025**

- Developed mobile and web applications using Flutter, Angular.js, C# and .Net Framework showcasing the ability to create fluid and functional user interfaces across multiple platforms.
- Increased application performance by 30% by migrating from Angular.js. to Flutter framework, which led to reduced load times and improved user satisfaction across multiple mobile platforms.
- Built and redesigned web platforms for leading Dominican banks including Promerica, BLH, ADEMI, BSC and others, showcasing the ability to work on critical and sensitive projects, meeting the security and quality standards required by the financial industry.
- Adapted to changing requirements and built solutions for a banking app that met the client specifications.
- Committed to continuous learning and professional development, staying abreast of the latest industry trends and technological advancements.
- Employed a comprehensive Tech Stack encompassing C#, .NET Framework, TypeScript, jQuery, HTML, CSS, Bootstrap, SQL Server, Git, Bitbucket, Flutter & Dart.

**Makisan Tech, Argentina, Buenos Aires**  
**Frontend Developer, April 2023 – August 2023**

- Built frontend web application for healthcare institution using React.js, Tailwind CSS, and Redux Toolkit.
- Delivered a clean user interface (UI) that improved the overall user experience.
- Implemented Git/GitHub with a branching strategy and PR reviews, reducing merge conflicts and accelerating releases.
- Employed a comprehensive Tech Stack encompassing React.js, Tailwind CSS, Vercel, and Redux-Toolkit.

**Freelance Software Engineer (Front-end / Full-stack)**  
**Remote, June 2022 – December 2022**

- Spearheaded the development of a compelling landing page featuring a downloadable and reviewable PDF document functionality.
- Orchestrated the planning of a responsive web-mobile design, meticulously structuring the website for optimal user engagement.
- Implemented an efficient SCRUM agile workflow, ensuring seamless task distribution and timely project completion.
- Utilized a robust Tech Stack including JavaScript, React-bootstrap, React, CSS, HTML, Vercel, and Vercel form.

## EDUCATION

**John Jay College of Criminal Justice, New York, NY – May 2022**

- Bachelor of Applied Science, Computer Science & Information Security

**Borough of Manhattan Community College, NY – June 2020**

- Associate Degree in Computer Information Systems

## CERTIFICATES

- The Complete JavaScript Course – Online Course
- The Ultimate 2023 Full stack Web Development Bootcamp – Online Course
- The Ultimate React Course 2024: React, Redux & More – Online Course
- Build Responsive Real-World Websites with HTML and CSS – Online Course
- Full Stack Developer Certificate – HENRY Coding Bootcamp
