Frontend/Full-Stack Software Engineer delivering fast, accessible UIs and secure, high-performance features in regulated environments (banking/healthcare). Experience modernizing legacy AngularJS modules, building React apps, and integrating .NET/SQL Server backends. Pragmatic collaborator focused on performance, reliability, and clear delivery.

Experience

Sistemas Integrados de Informatica	Santo Domingo, Dominican Republic
Front-end Web Developer	Jan 2024–Aug 2025
<ul style="list-style-type: none">Migrated legacy modules for consumer banking from AngularJS to Flutter (mobile), improving page/app load time ~30% and elevating perceived responsiveness across key flows.Built and redesigned web features for Dominican banks (Banco Promerica, BLH, ADEMI, Banco Santa Cruz and others) using C#, ASP.NET/.NET, TypeScript, jQuery, HTML/CSS, SQL Server; shipped secure features that met financial-sector standards.Optimized UX and validation (client/server) in transactional forms using .NET + SQL queries + UI refactors; reduced support friction and improved task completion for end users.Adapted to changing requirements and built solutions for a banking app that met the client specifications.Committed to continuous learning and professional development, staying abreast of the latest industry trends and technological advancements.Collaborated across teams (product/QA/ops) with Git/Bitbucket, code reviews, branching strategy; reduced integration issues and accelerated releases.	
Makisan Tech	Buenos Aires, Argentina
Front-end Web Developer	Apr 2023–Aug 2023
<ul style="list-style-type: none">Built a responsive, accessible front end for a healthcare platform using React, Tailwind, and Redux Toolkit, deployed on Vercel, improving task completion across key flows.Standardized a small component library and basic design tokens, increasing UI consistency and speeding up feature delivery.Introduced a Git branching strategy with mandatory PR reviews and preview deployments, reducing merge friction and improving release cadence.Employed a comprehensive Tech Stack encompassing React.js, Tailwind CSS, Vercel, and Redux Toolkit.	
Freelance Software Engineer	New York, United States
Front-end / Full Stack Developer	Jun 2022–Dec 2022
<ul style="list-style-type: none">Spearheaded the development of a compelling landing page featuring a downloadable and reviewable PDF document functionality.Orchestrated the planning of a responsive web-mobile design, meticulously structuring the website for optimal user engagement.Implemented an efficient Scrum agile workflow, ensuring seamless task distribution and timely project completion.Utilized a robust Tech Stack including JavaScript, React-Bootstrap, React, CSS, HTML, Vercel, and Vercel Forms.	

Education

John Jay College of Criminal Justice	New York, NY
B.S., Computer Science & Information Security	May 2022
Borough of Manhattan Community College	New York, NY
A.S., Computer Information Systems	Jun 2020
